The Yearbook

*Some pages full of pictures
between two covers bound*

*May just be pictures in a book
when by a stranger found.*

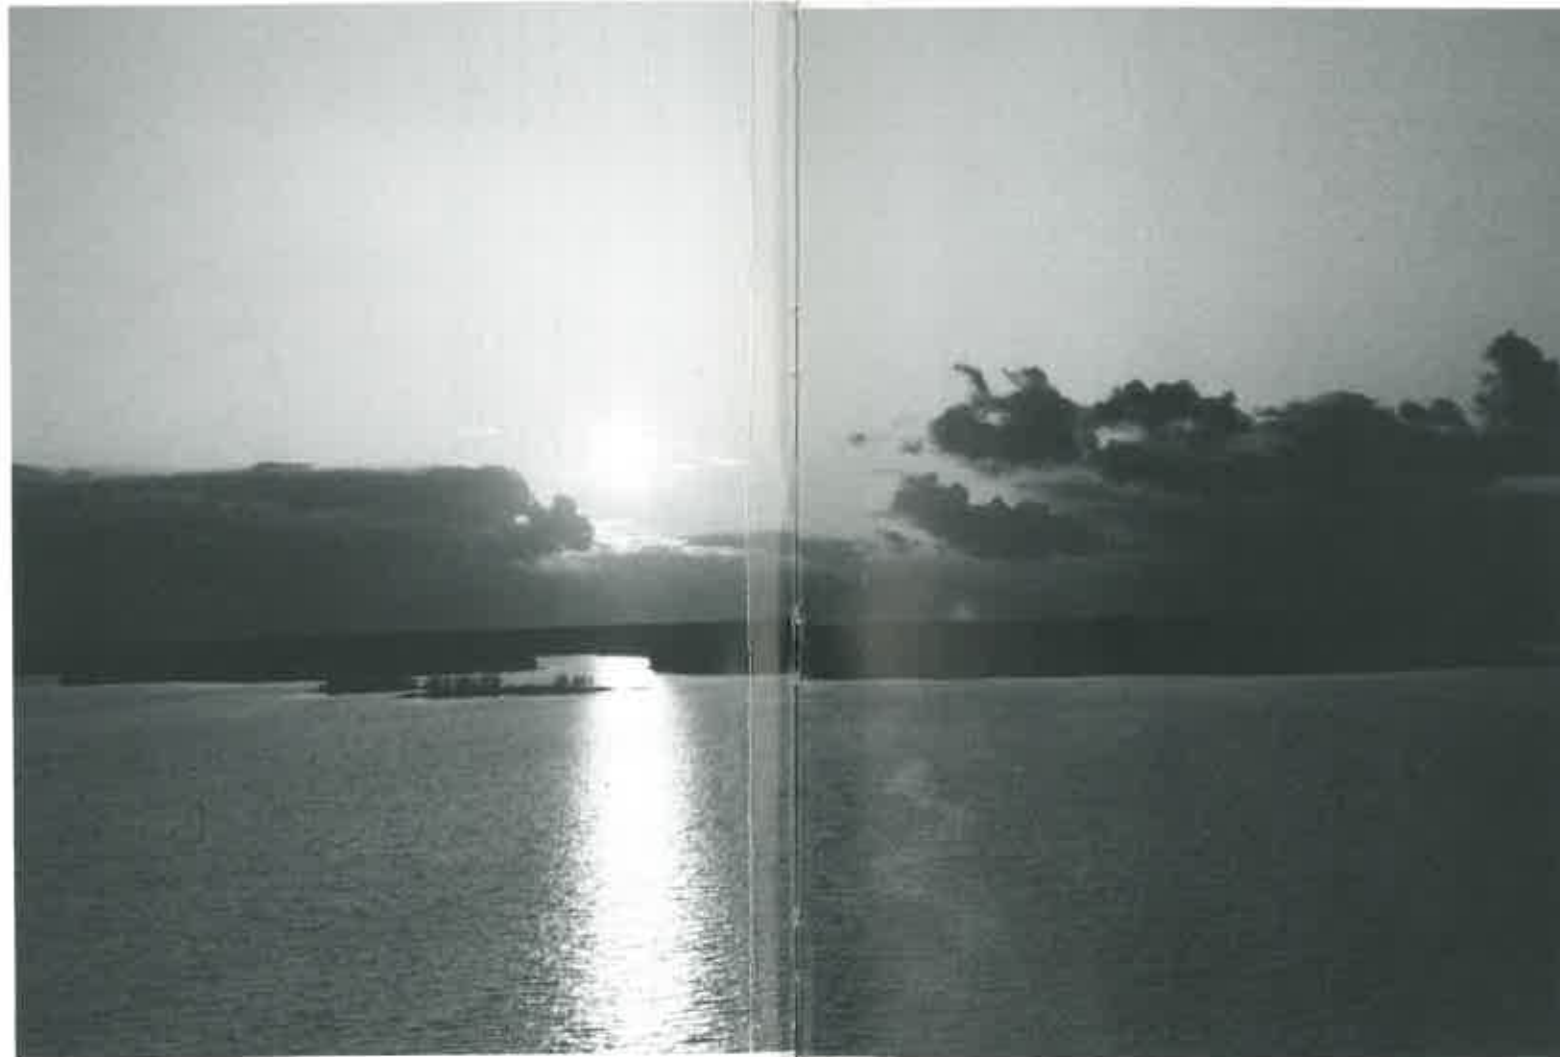

*But years from now I'll choose that book
from off a dusty shelf,*

*And view the pictures found within
of friends and of myself.*

*The memories I'll remember
of school days far behind,*

*Just how we looked and acted
and wasted all our time.*

*The "Bills and Janes" and teachers dear
are pressed upon the sheets,*

*The love and friendship that we found
to bind in our hearts deep.*

*The writings there of friends of mine
of thoughts they had for me,*

*The kindest words and feelings
they wrote for me to see.*

*To others it is just a book
with pictures here and there,*

*No memories there of others see
to wealth it can't compare.*

*But just for me a treasure chest
of memories way back then*

*To pick up now and later
and live those days again.*

DEDICATION

Dear Mr. Williams,

It can be truthfully said that there are few students on this campus who have not benefitted greatly from you. Over the years, we have been enlightened by your wisdom, amused by your humor, and touched by your warmth and understanding. You have a unique way of commanding respect because you relate to everyone in such a relaxed manner.

We are grateful for the knowledge from your experiences that you pass down to us every day. Through the discussion of current events, we have learned of the complexity of this

world and have been inspired to make it better. In making us learn history, you have helped keep us from repeating its mistakes. And by teaching us the great principles of our government, you have shaped us into the responsible citizens needed by this country and world.

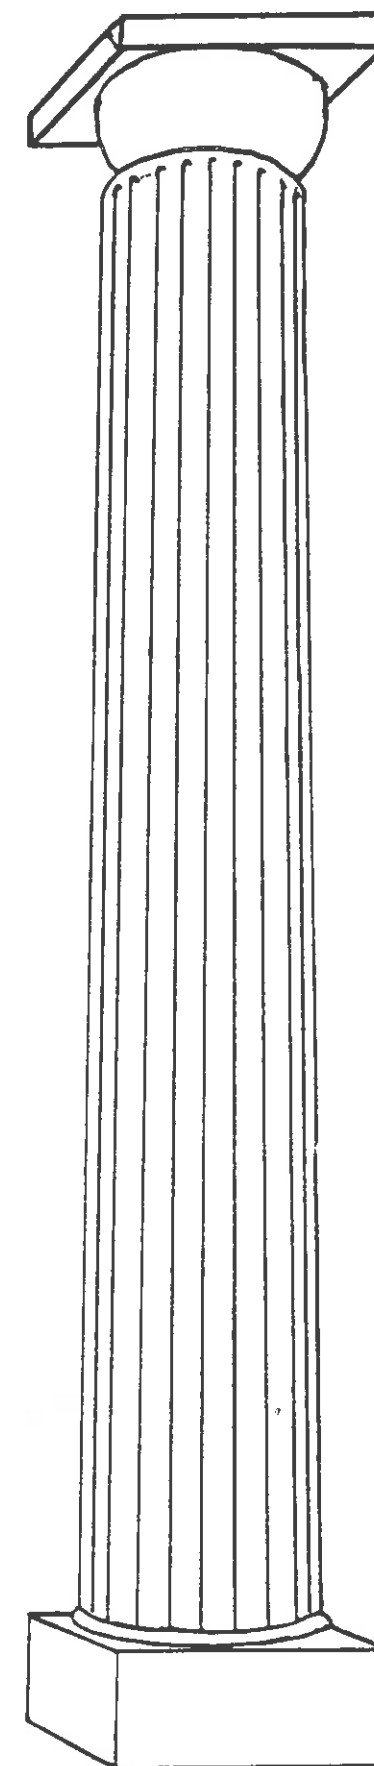

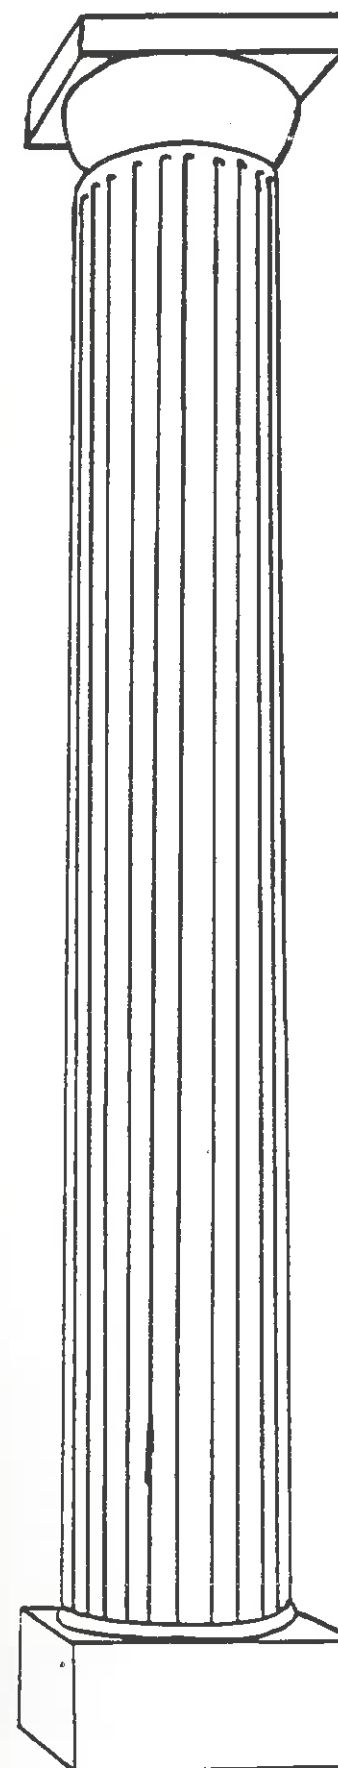

All of your hard work has not gone unnoticed, and we, the yearbook staff of 1994, would like to dedicate this yearbook to you to show our appreciation for all that you have done. We wish you all of God's blessings.

The First Impressions

"Hola Isabel. ¿Cómo estás?" "Muy bien. ¿Y tú?" Suzie B. and Eliana A.

Mrs. Liers basks in the glow of royalty.

On Monday, August 16, the students participated in the annual Student Association Handshake. As the mighty seniors of the Class of 1994 lined up clad in their Burger King Crowns, the lower classes, beginning with the juniors, began to make their way through the long line of people. For many, this was just an opportunity to make themselves feel more comfortable at S.V.A. by getting

to know the whole student body. When the last of the freshmen had gone through the line and had shaken hands with all the faculty of S.V.A., they started to enter the long line of hand-shaking. This was an evening of optimism for most, as the new school year was again upon them.

Chris Bokich

Ahh... the wonderful feeling of upper-lower-classmanship.

There is a feeling of euphoria among these new students until they realize the cafe doesn't serve this every day.

Hadley Hall

Upon arriving at Hadley Hall, the girls are shown their rooms. Usually, their first impression of the cubic-centimeter room is "You mean THIS is where I have to live?" After the shock of it is over and you have turned your room into your own little hide-away, the fun begins. Late-night talks on the phone with guys, having hall parties, staying up all hours of the night and having gab sessions are just a few of the things that make dorm life a little more enjoyable.

The experience gained from being on your own and living with so many different people is immeasurable. We get to see each other as we really are — without our makeup or our hair done, and we still care. We are there to listen when a friend needs a shoulder to cry on or someone to make them laugh. Through all of the little daily crisis (like what to wear) and the trouble we go through, someone is always there to love and accept you. In the end, we will leave S.V.A. with the memories of those friends that will last a lifetime.

My room, *my* mess, my glory declares Joshua G.

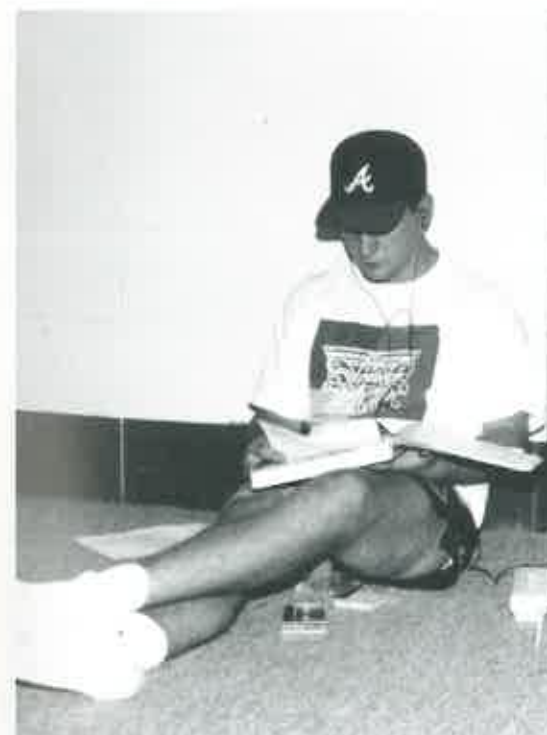

As all the excitement of a summer gone by began to fade, a new adventure called "dorm life" began for the men of S.V.A. At first, you may wonder how it is possible that such a place can possibly be part of education. It isn't long however, until you begin to wonder how you can have a good education without living in the dorm. What would studying be like without the dull roar of 20 stereos producing sounds that are quite indescribable?

What would it be like to sleep through the night without taking a few hours to sit in the chapel and pray for someone to confess. What would it be like to take a shower without . . . well, maybe there are some bad things about dorm life. Nevertheless, Price Hall and all it offers finds a special place in the lives of all who live there. Through all the noise, it gives you peace. Through all the arguments, it gives you newfound friends. And, through all the late nights, it gives you a lifetime of memories.

SATURDAY NIGHT

What comes to mind when you think of Saturday night? Homework? Not! Sleep? Who needs sleep? This is S.V.A! Remember — this may be the **only** time this week you may get to blow off steam or relax. Seize the moment!

You can get involved in class competition, helping your team excel in games like Snuggle, Frisbee Throw, or even the infamous Junk Scramble. Even if you don't actually compete, feel free to cheer on your classmates as they do.

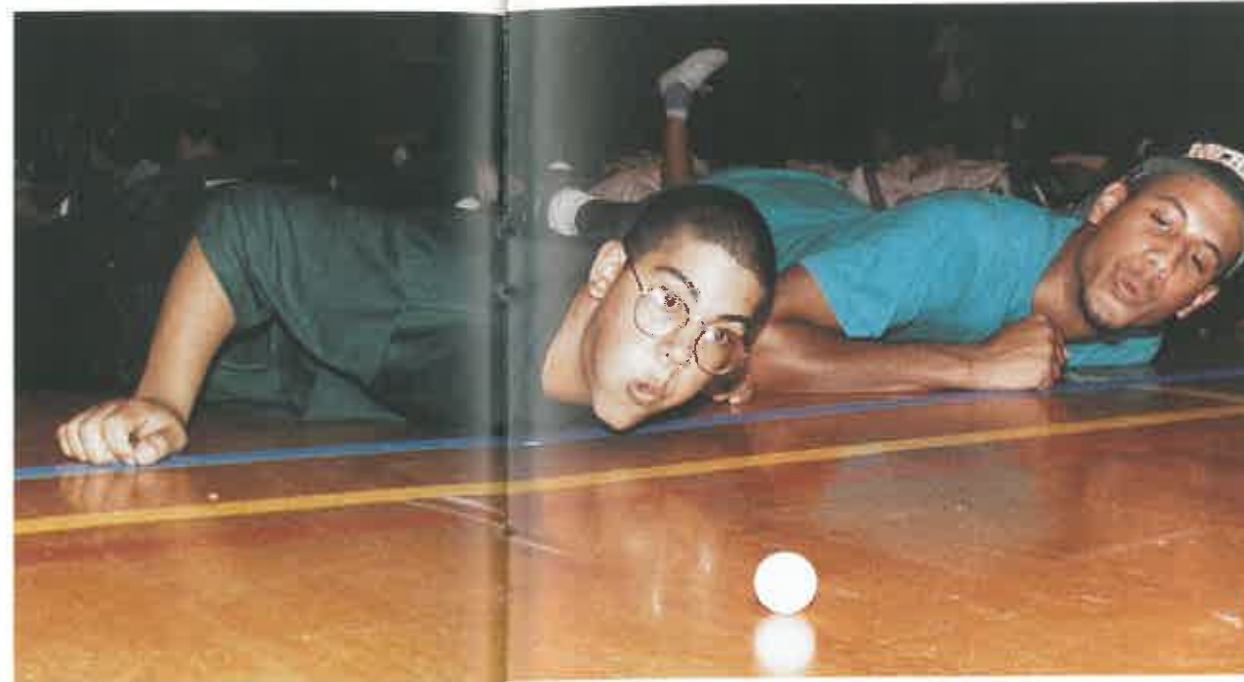

Do you hate class rivalry? Then take advantage of "open" gym and pool. You can almost always play an impromptu basketball or volleyball game, or join a once-in-a-lifetime jump rope competition. If you like, take a dip in the pool and swim a few laps — and try to avoid getting dunked.

If actual activity is not your idea of an enjoyable Saturday evening, feel free to relax and vegetate in the Ad Building chapel while watching the movies planned for the night.

No matter what is scheduled for the Saturday night activity, there is almost always something for everyone.

FALL PICNIC

Annually, the Student Association sponsors a fall picnic where classes battle for supremacy in various events. These events test the strengths and weaknesses of the classes as well as their ability to work as individuals and as a team.

The 1993 fall picnic officially started Saturday night on the ball field. There the classes waited with great hopes and anticipation, but as in all things, there are bound to be upsets. The most unexpected was the blow the Seniors received from the Sopho-

mores when the Sophomore girls defeated them in softball.

After the softball games, the focus of the evening turned to the volleyball games, a new event at the picnic. These matches lasted until 1:00 a.m., with the Seniors coming out victorious. Everyone then turned in for a night's rest. The next morning the air was alive with excitement. New promises and resolutions had been made, and everyone was prepared to fulfill them. Events of the day included rollerblading, track and field, gym

events, swimming events, and the championship softball games.

At the track the different classes put forth their fastest runners for the sprints, and the ones with the most endurance for the mile run. Here the Juniors and Seniors found themselves neck to neck.

Following the track events, the Freshmen made an unexpected appearance in which they set a new girl's record for the three-point shot. Also, a new record was set in the girl's standing broad jump by the Juniors, and in guy's weight-

lifting by the Seniors.

The climax of the picnic was the announcement of the results. After the Juniors had taken the softball games, the scores looked close. However, the Seniors came out on top as usual with the Juniors twelve points behind and the Sophomores and Freshmen not far below.

The day had been a success in that it had brought the classes together with a greater sense of unity. Most importantly, it had created new friendships.

History

The annual History Trip, sponsored by Mr. Williams every year, gives American History and Government students an opportunity to walk the soil that our founding fathers once walked.

This year, History Trip traveled to Fort Ticonderoga in New York State. While in New York, they toured the World Trade Towers, Saratoga, New York Stock Exchange and Lady Liberty.

Quebec, Canada allowed students to experience life in a European setting. Quebec, a French-speaking providence, was a general favorite of the students. In Quebec City, the students dined in a restaurant that serves Continental cuisine only 3 months of the year.

Trip

Once in Massachusetts, students were happy to hear people speaking English again! Boston probably had the most "American History" to offer. At Plymouth Plantation and Mayflower II, employees dressed in clothing from that time period entertained the guests with their portrayals of the 17th century.

In Rhode Island, "The Breakers" were visited. The students toured the \$30 million summer "cottage" of the Vanderbilt family.

After six days on the bus, the students were happy to set foot on the S.V.A. campus once again.

BARN

The Barn Party. Ah, yes — the event where students rack their brains, trying to utilize all of their creative powers to think of the most unique character or object to portray in costumes such as the Beverly Hillbillies, a bunch of bums, or perhaps even the Clintons. Once in costume, the whole mob of students headed for the barn. On

the way, the aroma of barbecued hot dogs and Grillers hit their noses. After feasting upon the main course, everyone got to eat a slice of what may have been Shenandoah's largest Rice Krispies pumpkin. The night billowed with fun as the students sang, carved pumpkins, and bobbed for apples to the music performed

by Mr. Rick Harris. The hayride and bonfire brought the evening to a finale. All the bums, the Beverly Hillbillies, the Clintons, and even a few cows all went back to their dorms, crossing back into the threshold of reality.

FRIEND SHIPS

S.A. CHRISTMAS PARTY

To millions of children around the world, Christmas is a very special and magical time of year. Even grown-ups have been known to get into the spirit. This year's annual Adopt-A-Child Christmas party was one of the highlights of the season for many families. Needy kids from around the community were invited to come and be "adopted" by students and receive gifts. Not only were there lots of presents, but food and games also.

You could tell just by looking at the children's faces that they were having a great time. It was one of those moments when you forget about the small, insignificant problems in your own life and instead focus on the joy and peace that Christmas brings to each heart. It is the most wonderful and joyous holiday to celebrate among family and friends. In this case, young hearts were filled with hope and love for the season we call Christmas.

PRINCIPAL'S ADDRESS

Dear Students:

The school year of 1993/94 is captured in the pictures and words of this yearbook. As you thumb through the pages, smiling at the memories that flood your thoughts, I hope that you will remember most how Jesus was our main focus. We prayed hard this year for Michael Flores, Cheryl Orr and other people that we knew were going through tough times. We were drawn closer together as we shared those needs and then presented them to Him. There was a sense too that we were very close to the Second Coming of Jesus. When we meet in heaven, what a joy to recall His special leading that made this such a fine school. The choir trip to London, history trip to Quebec, exchange program to eight different countries, mission trip to Romania, all combined with the sports, drama, music, academic and

spiritual program to make the great year that we had. There was something for everyone to be involved with.

I pray that, through the years you will be blessed with the Sweet Holy Spirit. This life is only temporary and is meant to prepare us for eternal life. Of all the blessings you received at this great school, I hope that this is one, the indwelling of the Holy Spirit that will last forever.

Your friend.

Freedom was just around the corner as Christina and I stepped off the turbulent plane ride and into the crisp Norwegian air. Vast mountains and tranquil fjords took over our view as we drove to the school with Nina and Terie our Norwegian parents.

We were welcomed by the cordiality of the students and teachers who soon became our friends. We quickly developed new taste buds for bread and cheese as our daily nutrition. The relaxed schedule was a nice change that we took full advantage of. Daily walks led Christina and I to explore our new home and enjoy our friendship abroad.

Fall Break took Christina and I on a continuous journey across the scenic land to Bergen. We enjoyed a relaxing cruise ship to Denmark.

We took trips to places such as a chocolate and glass factory, Viking and Natural History museums, besides a trip to the '94 Olympic city of Lillehammer.

Our stay could not have been planned any better as our minds grew and friendships developed. Even though we left the snow covered campus, our memories of Norway will remain.

Josh and I were exchange students to Denmark. It was a tremendous experience. We had a lot of fun. Living in a foreign country for a month really helps to open one's mind to different cultures and people. I believe that everyone should travel abroad at least once in their lifetime. It is so rewarding. I became good friends with several of the students there. Being in Denmark opened my eyes to how other people live and are governed. It helped me to be more accepting of others. We also traveled quite a bit. The country was very beautiful. There was a lot of history there. I also learned a little of the language. The month in Denmark was a month I will never forget!

SWEDEN

Sweden is a country full of simplicity where the moose run free. Within this country lies a simple school that reflects the love of God like no other. Those who know nothing of the school would believe it to be a secluded school full of bashful Swedes. For the first week Abby and Jeff believed this to be true. Ekebyholmsskolan quickly proved them wrong. They gladly accepted Sweden as their new home for the next month.

During this period they experi-

enced unforgettable adventures, including an overnight ferry ride to Finland. They joined their fellow classmates, Carter and Krista, also on exchange from SVA, and traveled to Estonia and Russia. When they weren't traveling they spent their days attending the Swedish classes. On the day of departure, they realized for the first time the strength of their new friendships and knew they would all meet again in the clouds of glory.

FINLAND

As British Airways Flight 796 touched down in Helsinki, Finland, Krista and I gazed out the window to get a first look at our new home. Little did we know that the month ahead would be an experience that would change us physically, mentally, and spiritually.

During the first week and a half, Krista and I got a feel for the school. Different staff would take us on tours of neighboring towns. The highlight of the trip came when we rode a ship to Estonia. We then took a bus to Russia for a day, and we finally boarded a cruise ship for an overnight passage to Sweden.

The four week span went by as fast as a homeleave. As the plane lifted off the ground, I peered one last time at Finland. I had a deep feeling inside that I will be back.

GERMANY

Germany — rolling hills, compact villages, techno, the autobahn, castles, Chi-Chi's, a lost passport, and bold, uninhibited, sincere people. These are only a few of the fond memories I have of my one month of complete immersion into German life.

After wrestling with luggage carts, passports, and a small station wagon, Eric and I got our first glimpse of Germany, doing 150 km/h. The next four weeks passed by in a similar manner.

We climbed boulders, conquered Darmstadt public transportation,

rode an untamed caterpillar, and drank cappuccino in quaint cafes, among other things. I learned a lot about myself (and Eric) on this trip. I will never forget the great friends and awesome experiences that we had.

I learned that things usually are not what they seem to be (like a secluded pizza place in the basement of the main school building) and what seemed like reserved formal people are really friendly and open. We had a wonderful time that gave me an abundance of memories that I love to remember and enjoy all over again.

SPAIN

Four weeks — only four weeks to see the castles, museums, cathedrals, shops, monuments, parks, monasteries, and just Spain itself. Four weeks to get to know the people and their culture — just four weeks. I can tell you that those four weeks were just enough time to get a taste of Spain. Bassam Karim and I had the time of our life in Spain. One of the highlights of our stay was to travel to Zaragoza and see the Festival of Pilar. The Spaniards have a festival every month and this was the one for October. During these festivals, the

people dress up in native Spanish attire and sing and dance to Spanish folk songs. One of the things that sticks out in my mind is the beauty of Spain. The waterfalls, the Mediterranean, the many parks, and of course the mountains. Even though Spain is beautiful, we can't forget the people because they are what makes up the country itself. We made a lot of friends there that we will never forget. The people were very friendly and their warmth and friendship gave us memories that will last a lifetime.

Words cannot express the fun that Shanon and I had on our trip to Aotearoa — land of the long, white cloud. A three day canoe trip, which included sore muscles, rain, sun, and breathtaking scenery, was one of our many experiences. We had the unique opportunity of being accepted into a native tribe of Maori Indians. We sang songs and touched noses twice (symbolizing the joining of two spirits into one family.)

We also went on a two week tour of the North and South islands. We got to see the diversity of New Zealand's terrain: snow capped mountains, rolling hills where sheep graze, beautiful beaches, boiling mud and volcanoes. The best memories, however, are of the

friends we made. I will never forget them or the way they changed my life.

AUSTRALIA

The Land Down Under — what a fantastic experience to be able to go to the opposite side of the world for five weeks. Larry Karpenko and I were fortunate enough to be SVA's representatives there. We were also able to go on a tour with Lilydale Adventist Academy's band and choir and saw a large portion of the countryside. It was

absolutely gorgeous and was forever changing. We also had the chance to go to some of their classes, which were very similar to ours. We met the best people there and we have gained friends for life. It was a wonderful experience and we had the best time of our lives.

Banquets

OPEN HOUSE BANQUET

The Girl's Open House Banquet of 1993 combined two of the world's most popular attractions, Disneyland and Paris, France, and brought them right here, to the campus of SVA.

Good ole Hadley Hall truly was a magical place that night, with themes from classic Disney productions, such as **Cinderella**, **The Little Mermaid**, **The Jungle Book**, **101 Dalmations**, **Beauty and the Beast**, and **Robin Hood(Annex)**.

And after taking a few steps into

the cafeteria, couples became truly convinced that they had been transported to a quaint downtown café in Paris for a delicious dinner together. The sweet music of violins was added to the repertoire to make the meal even more delightful.

After being swept away to these two exciting and romantic places, couples made their way to the chapel for a slightly comical, but none the less entertaining magic show. The show was followed by **The Scarlet Pimpernel**, who many

will argue was a most hilarious production about the relations between the English and the French during the French Revolution.

It is unanimously agreed that much imagination, planning and hard work cooperated to make the night of November 14th a wonderfully memorable night for the student body. And many faculty believe that it was the best decorated and most organized Girl's Open House in years.

BLACK & WHITE GALA

Psychologists say that some people dream in black and white. This must have been the case for the Senior Benefit party/banquet/dinner/theater on January 15, 1994.

Close your eyes and gently drift off into a deep slumber. Try to imagine yourself entering a cafeteria overflowing with black and white decorations ranging from balloons and masks to vanilla ice cream served with hot fudge. The sound of laughter is mingling in the air with the deep, bass voice of Harry Connick, Jr. in the background. A smile sneaks across your lips as you glance around to many nicely dressed students in their black and white attire. You quickly find a seat at a table and begin to eat a delectable Italian dinner, when suddenly Jennifer Blough, Abel

Hagen, Felix Gonzalez, Benjy Eye, Renee Samuels and Liane Gray appear on stage to perform a comedy skit, "Trouble in the Cellar."

After 20 minutes of tear-jerking laughter, everyone was invited to the Ad. Building to pose for black-n-white pictures taken by Jeff Kumalae.

Next, everyone filed into the chapel to relax and enjoy Green Room performing "A Simple Man" and "Wonderful Tonight." The mood was set as the films "I Love Lucy" and "The Three Stooges" appeared on the projector screen.

All in all, the evening was a great success. As you slowly come back to reality, the memories of the gala fade to black . . . and white.

— Christina Pacylowski

"Jeff darling, do you like holding my pinky?" Shelley C. says to Jeff K.

Thing from Addams Family joins Gavin G. and Abby G. at the Gala.

"Can I Please borrow your jacket?" Carmen G. says to Alan S.

Who would've thought that they would have "Hot Sax" at the banquet. Amy S., Amber C., Norman D., Shannon W., and Corbin K.

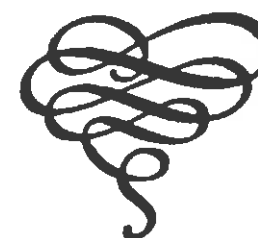

AHHHHHHHHH!!! Matt S. and Janice T. perform a duet.

As you walked through the "Tunnel of Love", and into the gymnasium, you were greeted by what was probably the greatest transformation ever seen on the campus of SVA. The feelings of awe and romance mingled, giving the S.A. Valentine Banquet a wonderful ambience. Students were shown their beautifully decorated tables with the assistance of Carmen Gudmundsson, the hostess of the evening. Once seated, everyone enjoyed the delicious food, and the tremendous service of the faculty. Romantic music that played throughout the dinner set the stage for the live entertainment that was soon to come. After a delicious chocolate mousse dessert, the program began with a welcome from the S.A. President, Krista Messenger. The program was then

turned over to the Masters of Ceremonies, Mr. and Mrs. Coryell. After warming up the audience, the couple introduced the first performers, Samala Gaskins and Benjy Eye, singing "Unforgettable". Following them, various love songs were performed by, Matthew Segebartt and Janice Torres, Teresa Roberts, the Woodwind Ensemble, Hot Sax, and Green Room. The music concluded with "When I Fall In Love", sung by Joy Ramirez and Jason Dunkel. The evening came to a close with the love story/movie, "Sleepless In Seattle".

With all of this romance and so many exciting memories the S.A. Valentine Banquet of 1994 was nothing but "Simply Unforgettable".

THE SHENANDOAN STAFF

Many people have this crazy idea that a yearbook can be thrown together within a week or so. I'm here to tell you that just won't happen. It takes months, seven to be exact, of long afternoons, late nights, and early mornings. The most important resource essential to the making of a good yearbook, besides time, is a great yearbook staff, and I've had the best. I've ordered, brow beat, yelled at, and almost beaten them, and believe it or not they stuck it out with me and worked together better than I could have wished for. Through all of the frustration and hard work I would not have traded being the yearbook editor for a senior year of ease. This staff is my family and the yearbook room my home. Some of my best memories of this year were made right here in this room with my staff. This is a tribute to you. I want to thank all of you, especially my main staff, thanks for all of your hard work and most importantly for not giving up on me.

To Our Dear Daughter Christa Joy:
We know we tell you we love you, but one thing we may not always remember to say is how proud we are of you, too. We're proud of your successes — of your skills and talents that God has given you. But, more important than these, we're proud of the person you are inside — of the goodness, sensitivity and generosity which are so much a part of your daily life. You are truly a special person, and we feel proud and fortunate to have been given a gift from God — of a daughter like you.

Love, Mom and Dad

Dear Chris,

CONGRATULATIONS!

When you were a boy, you liked to build bridges in the sand. Later on you developed the gift of building bridges of understanding. And in the future, there will be more bridges to be built and crossed.

We are proud of you, love you and believe in you. God bless you always.

Yours,
Mom, Dad, Ben, Dom and Manuel

DEDICATION TO MICHAEL FLORES

There are few people that face extreme tragedy and emerge stronger than before. Michael has proven to be one of them. On October 16, 1993 Michael fell from a cliff in West Virginia and fractured his seventh vertebrae. He is now paralyzed from the waist down. Many people in this situation would have blamed God. Instead, Michael embraced Him and his faith in God has grown. Although he is hoping to walk again he has learned to leave the decision in God's hands.

The support Michael has received from his family and friends has played a major role in his recovery. This encouragement has enabled him to return to S.V.A. and graduate with the class of '94.

Michael, you have been an example and inspiration to us all. We love you and our prayers are with you. "If you believe, whatever you ask for in prayer, you will receive." Matt. 2:22

— Jeff Kumalae
