Favorite Subjects Saved For The Summer Vacation

"I save my favorite subjects for the summer," said a wide-awake student the other day. "Then I can pursue them at my leisure under the guidance of the Home Study Institute and return to college in the fall with extra credits that are very useful. I couldn't enjoy the vacation without some study to occupy my leisure minutes."

The Home Study Institute offers a full line of college and academic studies. Its work is accredited in all our own educational institutions and in many others where its high character is known. Payment can be made on the instalment plan. Tell us of your needs at once and let us help you get started. The enrollment sent in to us before you leave college, or immediately after you reach home will insure your receiving the lessons and textbooks in time to start your vacation right.

QUALITY SERVICE

THESE are the two dominating words in producing an annual or yearbook. The first means that every detail in your book be of the highest order. It means that the product shall be as nearly flawless as possible. We believe that our books have this quality as year after year they receive honors in all contests entered. The word service is usually depicted as meaning to produce some thing in due time. We feel that in our work this word has a broader meaning. Our service on your yearbook means giving the editor and staff helpful criticisms, ideas that are new and different, layouts that are attractive and years of experience to help you make your imaginative ideas—printed realizations.
