SHENANDOAH VALLEY ACADEMY

Editor

Business Manager  
Harri Hohensee

It is here at Shenandoah that we have been faced with the real challenge of life: a chance to obtain happiness and share that happiness; a chance to cultivate our talents and abilities; but most of all, a chance to become that person God intended us to be. With this special thought in mind, the 1961 SHENANDOAN staff has endeavored to portray how we who make up Shenandoah have accepted this challenge. These things we will always remember: the fun at social activities, the many opportunities to develop leadership, and the knowledge and guidance gained from ones so well qualified. May this book of treasured memories serve to remind us how Shenandoah has shaped our present lives, that our future may be guided in like manner.

## *Dedication*

Because of his deep and personal interest in the Christian education of Adventist youth and especially because of his close association with the development of the "New Shenandoah," we, the staff of the 1961 SHENANDOAN, lovingly dedicate this volume to the president of the Potomac Conference, Elder H. J. Capman.

## Principal's Message

For fifty-two years Shenandoah Valley Academy has been training young people for a place in the Master's service. Many have continued their education in college and filled responsible positions in the organized work of God. Today they can be found around the circle of the earth. Some of the earlier graduates are now laying down their burdens and yielding to more youthful hands. What a heritage is yours, youth of today. You have now walked in the same halls, studied in the same classrooms, played on the same campus and worked in the same fields, as many mighty men and women of God who have gone on before you. You have joined an exclusive and illustrious group, and whether you realize it or not, you have become a part of Shenandoah, and Shenandoah has become a part of you. As you move forward to take up new and varied positions of responsibility, may the spirit of this school and the wonderful truths it stands for live on in your lives as you follow the steps of those who have gone on before.

# TIME

hasn't changed...

but people have. . . . A few decades ago a high school diploma was enough for many. Today, one in fourteen Americans holds a college degree. But now even greater needs demand a wiser preparation to meet them. That's where the progressive, accredited, Christian college comes in. . . . This fall the doors of WMC swing open to youth with trust, sense, and ambition.
